## EXPERIENCE

---

### Software Engineer

Nov 2023 – Present

#### *Fetch*

- Developed a CCTP bridge for frictionless token swaps
- Built Plex ( Point system as Saas ) where we acheived over 50k+ users
- Built Fetch V2, enhanced the checkout process for seamless transactions
- Developed mixtool using golang and nextjs to create AI generated internal tools

### React Native Engineer

Apr. 2024 – Jun. 2024

#### *SiBorg*

- Implemented secure login and Lens handle purchase feature which provides a seamless user experience
- Developed a mutiple features to incentivize creators
- Integrated a robust logger for error tracing and debugging

### React Native Engineer

Jul 2023 – Aug 2023

#### *Buttrfly*

- Enhanced code quality and maintainability by optimizing and cleaning up the codebase
- Upgraded the entire app from Expo 46 to Expo 48, which made the app faster and smoother

## PROJECTS

---

### LensPlay | *React Native, Expo, GraphQL, PostgreSQL, Express, GoLang*

- LensPlay is a native decentralized video sharing app built on top of lens protocol
- Created a complete application featuring a user-based feed, explore, profile, real-time notifications, and the ability to collect videos as NFTs, and mirror videos
- Developed an indexer to store on-chain activities in a database, specifically for notifications and built a video player that supports gestures
- We got 10k+ registration on waitlist and 300+ downloads within 36 hours

### Shuffles | *React Native, Expo, PostgreSQL, Express*

- Shuffles is the fastest cross-chain wallet app that provides easy access to essential DeFi features, including Limit-Orders, Dollar-Cost Averaging (DCA), and cross-chain bridging
- Built using powerfull protocols like Jupiter, Debridge, and Wormhole
- Optimized app by compressing size to 24 MB and enhanced the user experience

## TECHNICAL SKILLS

---

Javascript, Typescript, Golang, SQL (Postgres), MongoDB, React, Next, React Native, Node.js, Express.js, Expo, Tailwind, Git, Docker, Redux, Redux-Toolkit, Zustand, Prisma

## ACHIEVEMENTS

---

- Member at Superteam India and Developer DAO
- Won multiple global level hackathons like ETHGlobal, ETHIndia, MLH, etc
- Organized mutiple events and hackathons at region level
